Thank you for registering with iShip.com
In the next few pages we will be asking you to complete the following steps so that we can provide you with the most accurate rates to support your shipping needs.
1. Provide your E-mail and Return Address.
2. Tell us what carriers you use and from where you ship your packages.
Additionally, if you will be using our E-Commerece features, you will also need to tell us which services you will use to ship to your buyers. After registering, you will be sent an e-mail containing your user ID and password.
If you are ready to begin, press the Next button below.

UPS Shipping
Tell us if you want to ship your UPS packages using iShip.com
If you have a laser printer or ink/bubble jet printer either A) ship your UPS packages at retail shipping center or B) have your own UPS account you can use iShip.com to process your packages and print your labels. Select below how you would like to process your UPS packages.
140
I will use iShip.com to ship my UPS packages and I have my own UPS Account.
UPS Account Number.
141
Scheduled Pickup time:
142a
AM
142b
PM
142c
143
I will use iShip.com to ship my UPS packages but do not have a UPS Account. I will drop the packages off at my local retail shipping center. Please set my default Shipping Location to my retail shipping center.
144
I will not use iShip.com to ship my UPS packages.
If you have chosen to ship your UPS packages with iShip.com using your own UPS account, you will be notified by e-mail when UPS has activated your account for Internet based shipping. This typically takes two business days.

E-Commerce
If you sell your products using online auctions, classified services or your own Web Site iShip.com can offer you a way to not only show your Buyers what they will pay for shipping, but also automate the entire post-sale process
We will help you notify the Buyer of the total sale price - including shipping, getting the Buyer's shipping selections, getting the shipping address and even collecting credit card information for you to process. We can also let you add your business's handling charges without having to calculate percentages or subtotals. We do the work for you.
To setup your Selling Preferences you will need to do only three easy steps:
1. Select the services you will use to ship your products. The Buyers will see only the services you select.
2. Select how your shipping charges are displayed. Is your shipping included in the sale? Do you charge for handling? We will make sure the price is right.
3. Select what kinds of payment you accept. We will find out how the Buyer is going to pay. We will even collect credit card information for you to process.
You can set these preferences up now or later, but if you would like to do it now, press Continue. Otherwise, press Finish to complete registration.

Description
302
This is about 8 year old computer with a gas plasma display. It has a 286 motherboard and runs dos 3.3. It has about 1 Meg. of memory in it with a 20Meg hard drive. It runs fine although it is obviously very slow. Buyer pays all shipping costs. Click here to use iShip.com to view your shipping charges. Payment is by cashiers check or money order only. Sorry, I've been burned by personal check promises. Unit will ship within 48 hours of receipt of funds.

Generate the Label on the Server
1255
Display in the client browser a text string with a specified font size, and display such text string in a HTML table data cell with a specified width so that client browser with 96 display device DPI would display such text string in one line, while client browsers with 120 display device DPI would display such text string in two lines
1256
Does the user see the text string that we displayed in the last step wrapped by client browser display engine ?
YES
NO
1257
Client browser display device DPI is 120
1258
Client browser display device DPI is 96
1259
Calculate the label HTML image size from carrier-specified label size and client browser display device DPI.
(label HTML image size in pixels)=
(carrier-specified label size in inches)*(client browser display device DPI)
1260
Display in the client browser the label we generated on their server with an HTML image tag and an HTML image size that we calculated in the last step
1261
Client browser prints out the label with size calculated from label HTML image size and client browser display device DPI.
(size of print label in inches)=
(label HTML image size in pixels)/(clients browser display deviceDPI)=
((carrier-specified label size in inches)*(client browser diplaydeviceDPI))
/(client browser display device DPI)=
(carrier-specified label size in inches)

End of Day
Print a driver record for packages shipped.
UPS requires its customers using computer based shipping systems to perform "End-of-Day" at least once each day a package is shipped. This will produce a driver record and send an electronic record of your packages to UPS, ensuring proper billing. This is only required, however, if you are using your own UPS account. You should perform End and print your driver record before the driver arrives.
You have shipped XX packages since your last driver pickup.
470
To print a driver record, press Perform End.
Perform End
471
Reprint
Reprint a driver record from a previous End-of-Day.
Occasionally you might need to repeint a driver record if the original was lost, damaged or was otherwise unreadable by the driver. To reprint a driver record from a previous date click Find Driver Record below. You will be shown a list of previous records in the order they were created, the most recent at the top of the list.
